

WORKSHEET #1: Musical Greeting Card

Playing sound and music

Audio Tag: `<audio>` `</audio>`

- Find the URL for your music file in Google: **Christmas songs mp3**

In my case, I found the URL for La Neige on <http://www.last.fm>
Right-click on the link of the **Free MP3**, and **copy link address**

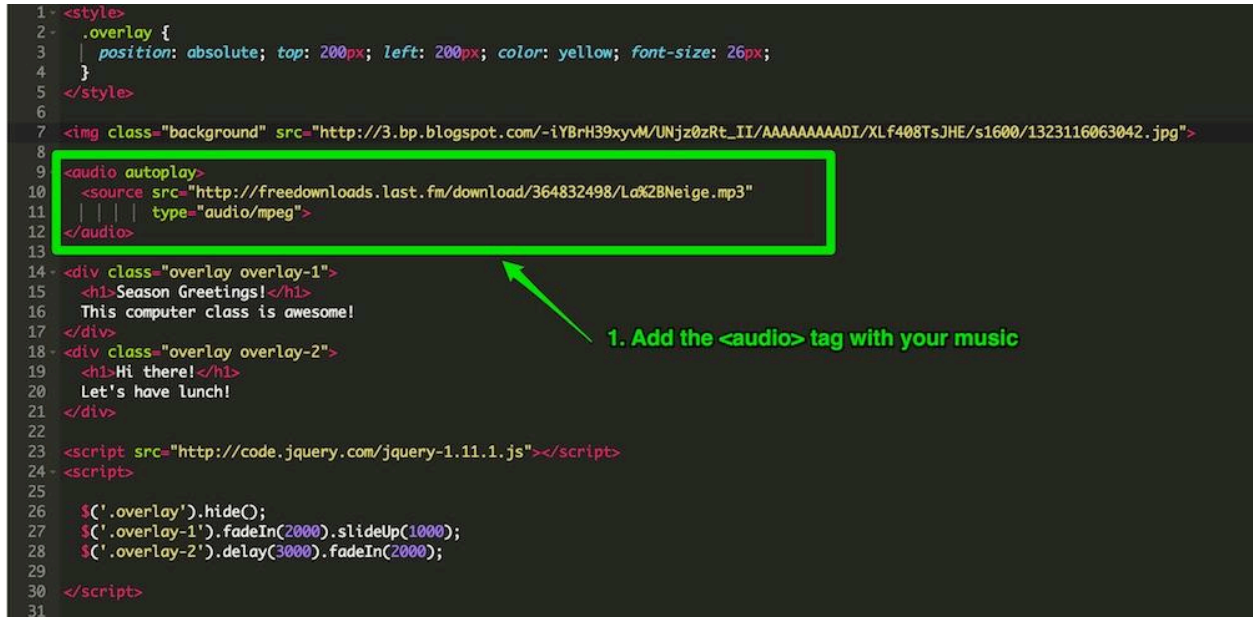

URL for the music file **La Neige**

<http://freedownloads.last.fm/download/364832498/La%2BNeige.mp3>

- Let's open the our greeting card file in neocities, **card.html**, and add the following code, after the tag. You can paste the Music URL in the **src** attribute.

```
<audio controls>
  <source src="http://freedownloads.last.fm/download/364832498/La%2BNeige.mp3"
    type="audio/mpeg">
</audio>
```

```
1- <style>
2-   .overlay {
3-     | position: absolute; top: 200px; left: 200px; color: yellow; font-size: 26px;
4-   }
5- </style>
6-
7- 
8-
9- <audio autoplay>
10-   <source src="http://freedownloads.last.fm/download/364832498/La%2BNeige.mp3"
11-     | | | | type="audio/mpeg">
12- </audio>
13-
14- <div class="overlay overlay-1">
15-   <h1>Season Greetings!</h1>
16-   This computer class is awesome!
17- </div>
18- <div class="overlay overlay-2">
19-   <h1>Hi there!</h1>
20-   Let's have lunch!
21- </div>
22-
23- <script src="http://code.jquery.com/jquery-1.11.1.js"></script>
24- <script>
25-
26-   $(''.overlay').hide();
27-   $(''.overlay-1').fadeIn(2000).slideUp(1000);
28-   $(''.overlay-2').delay(3000).fadeIn(2000);
29-
30- </script>
31-
```

1. Add the <audio> tag with your music

- If you want to start automatically and hide the controls, you can set **autoplay**.

```
<audio autoplay>
  <source src="http://freedownloads.last.fm/download/364832498/La%2BNeige.mp3"
    type="audio/mpeg">
</audio>
```
